

Clews Management Solutions

CLEWS MANAGEMENT INSTALLATIONS & FIELD SERVICES

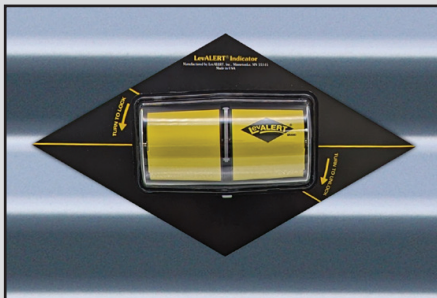

Expert Solutions for Safe and Efficient Grain Monitoring

Our team is trained and equipped to work safely at any height. We remain on-site until the job is completed to your satisfaction. Our services include troubleshooting, repairing and replacing Opi StorMax cables, as well as supplying and installing Bin-Sense Monitoring.

Our Services:

- Resolving issues with non-reporting cables
- Programming and ensuring proper functionality of StorMax cables
- Addressing and correcting poor quality installations

For any service, training questions, or concerns about your grain monitoring system, please contact us. We are here to help!
